# GREENLEAF NURSERY

Release Notes – Version 1.0.0

| | |
|---|---|
| **Project** | GreenLeaf Nursery Inventory Management System |
| **Version** | 1.0.0 |
| **Release Date** | 03 November 2026 |
| **Release Type** | Final Project Handover |
| **Technology** | MERN Stack (MongoDB, Express.js, React.js, Node.js) |
| **Deployment** | Vercel |
| **Git Branch / Tag** | main / v1.0.0 |

**DOCUMENT STATUS: Prepared for final review. Production verification, client confirmation, and final acceptance remain pending.**

Prepared By: GreenLeaf Nursery Development Team

# 1. Release Overview

GreenLeaf Nursery Version 1.0.0 is the initial final handover release of the nursery inventory and sales management system. The application provides a centralized platform for managing plant inventory, categories, sales transactions, users, and operational information through a role-based dashboard.

# 2. Features Included

## Authentication and Authorization

- User login functionality.
- Authentication state management.
- Protected application routes.
- Role-based access for Admin, Manager, and Employee.

## Dashboard

- Centralized dashboard.
- Inventory and sales summaries.
- Operational information and analytics.

## Inventory Management

- Plant record management.
- Inventory search functionality.
- Filtering and pagination.
- Plant information management.

## Category Management

- Plant category listing.
- Category creation and updating for authorized users.
- Organized inventory classification.

## Sales Management

- Sales transaction management.
- Sales information and summaries.
- Date-range filtering and analytics where implemented.

## User Management

- Staff account management.
- Role assignment.
- Access restrictions.

# 3. Technical Implementation

| Technology | Implementation |
| --- | --- |
| React.js | Frontend interface |
| Node.js | Backend runtime |

| Technology | Implementation |
|---|---|
| Express.js | REST API |
| MongoDB | Database |
| Redux Toolkit | State management |
| Axios | API communication |
| React Bootstrap | UI components |
| Vercel | Frontend and backend deployment |
| GitHub | Source control |

## 4. Improvements

- Organized frontend state management.
- Improved authentication handling.
- Protected application routes.
- Integrated frontend and backend APIs.
- Configured deployment environments.
- Introduced frontend testing configuration.
- Improved application structure and maintainability.

## 5. Bug Fixes and Deployment

Development and integration work included:

- API endpoint configuration.
- Frontend/backend communication improvements.
- Authentication integration.
- CORS configuration troubleshooting.
- Environment variable configuration.
- Deployment troubleshooting.

> **Note:** These items document development work; they do not independently certify that every production issue has been resolved.

## 6. Known Limitations and Future Enhancements

- Automated low-stock notifications.
- PDF and Excel report exports.
- Barcode-based inventory management.
- Advanced sales analytics.
- Automated database backup scheduling.
- Detailed audit logs.
- Expanded automated test coverage.

## 7. Client Feedback

The following reviewers are designated for final project review:

| Reviewer | Review Focus | Status |
|---|---|---|
| Ali | Inventory and dashboard usability | Awaiting confirmation |
| Nouman | Sales management and filtering | Awaiting confirmation |
| Saunwal | Administration and security | Awaiting confirmation |

Feedback must be collected from the actual reviewers before recording final approval.

## 8. Final Verification Checklist

- ■ Production frontend verified.
- ■ Backend API verified.
- ■ Login functionality tested.
- ■ Admin permissions tested.
- ■ Manager permissions tested.
- ■ Employee permissions tested.
- ■ Inventory operations tested.
- ■ Category operations tested.
- ■ Sales operations tested.
- ■ CORS configuration verified.
- ■ Database backup verified.
- ■ Documentation completed.
- ■ Client feedback confirmed.
- ■ Final client acceptance received.

## 9. Version History

| Version | Date | Description |
|---|---|---|
| 1.0.0 | 03-Nov-2026 | Initial final handover release |

## 10. Repository and Release Information

**Repository:** GreenLeaf-Nursery

**Main Branch:** main

**Release Tag:** v1.0.0

**Release Title:** GreenLeaf Nursery – Final Release v1.0.0

The repository contains the final application source code and supporting project documentation.

## 11. Handover Status

| Item | Status |
| --- | --- |
| Documentation and release notes | Prepared |
| Production verification | Pending confirmation |
| Client feedback | Pending confirmation |
| Final acceptance | Pending |
| Repository archiving | Pending approval |
